

# EXTERNS WANTED:

We are excited to offer externships to 3rd and 4th year veterinary students.

*Duvall Veterinary Hospital is an established, growing, and independently-owned practice located in the beautiful Snoqualmie Valley, less than an hour outside of Seattle. We're close to the excitement and variety of the city, but just far enough away to have a small-town, community feel – and an easy commute. Our goals are to provide veterinary students with hands-on experience, teach new skills, and showcase the day-to-day operations in a busy practice. We are looking for students who are motivated, self-starters that have a desire to learn from experienced veterinarians, help out a great team and enhance your education.*

We offer a collaborative, dedicated team and a well-equipped hospital with full in-house lab, digital radiography, therapeutic laser and other diagnostic tools.

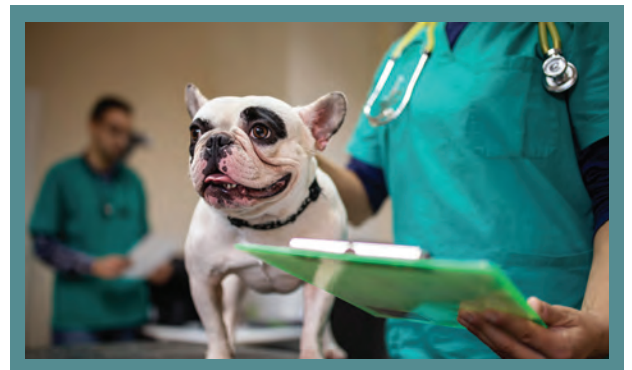

We have a highly trained support staff that are here to make the days go smoothly. We have regular staff meetings that are used to better the practice and promote teamwork, communication and high team morale.

Come learn from our awesome team and enjoy a fantastic work environment with great clients!

## REQUIREMENTS

To be considered for an externship, you must:

- Be enrolled in an accredited Doctor of Veterinary Medicine Program
- Provide a current certificate of liability insurance  
The AVMA PLIT liability insurance is free for AVMA student members.  
You can find the application on their website: [avmaplit.com/products/student-liability](http://avmaplit.com/products/student-liability)
- Provide proof you are authorized to work in the United States

## STILL INTERESTED?

WONDERFUL,  
WE LOOK FORWARD TO HEARING FROM YOU!
